

ORI BARAM – RESUME

My name is **Ori Baram**. I am a Junior Web Developer specializing in **full stack web development**.

I am well-versed in the following programming languages and technologies: **JavaScript, HTML, CSS, Sass, ReactJS, Redux, Node.js, Express, MongoDB**.

I am hardworking and dedicated, autodidact, eager to learn, develop and apply new technologies. Looking for my foothold in the world of programming. In the past year I have built many projects as part of my learning process.

Skill Highlights

- Self-disciplined
- Able to quickly learn new concepts and technologies
- Out of the box thinker
- Complex problems solver
- Creative thinker
- Responsible team-player
- Hardworking
- Able to work independently, to handle a development projects from start to finish.
- Committed and proactive
- Attention to details

Technical Skills

- HTML5
- CSS3, CSS Grid, Sass
- JavaScript
- ReactJS, Hooks
- Redux, Thunk
- Reducers
- Node.JS, Mongo DB, Express
- Frontend & Backend
- SaaS

Languages

Hebrew – Native language

English – Native language level

Education

2000-2003

Bachelor's degree, General Literature and Jewish Philosophy – Received the Dean's Honor,
Bar-Ilan University

Certifications

Web Applications Development: Appleseeds Academy & Microsoft, November, 2020.

9 courses on Udemy in these fields of study: JavaScript, HTML5, CSS3, ReactJS, Node.JS, Express, Mongo DB, UI/UX, Redux, Bubble.io.

Experience

2020 till Now

Built over 10 independent web projects as part of my programming studies

- Visit my projects portfolio site - <https://www.obrm-portfolio.dev>

2020

Built a full featured commercial SaaS web system for Greeneye company as a freelance

- Used a no code tool called Bubble.io to build all by myself a full featured web system for Greeneye company for evaluating companies which are traded in the stock market.
- I planned, characterized, designed and built this project all on my own.
- Includes a full administrator interface and a client interface.
- Visit the demo of the project - <https://greeneye-demo.bubbleapps.io/version-test>

2018 to 2020

Information-systems support in Ra'anana municipality

- Information-systems support, remote control, user training, troubleshooting information-systems issues, ongoing work with Active Directory.

2001 to 2005 and 2009 to 2016

Client Backoffice Operations in the field of life insurance and pensions at various insurance companies

- Ongoing care and management of pension portfolios and life insurance of companies.
- Ongoing work with Excel - analysis and processing of complex data - pivot tables, VLOOKUP, Macros, VB and other complex Excel functions.

2005 to 2007

System implementation at Ichilov Hospital

- Training, implementing, testing, characterizing, and giving technical support for the "Birth care" medical information-management system in a variety of departments in the hospital.
- System administrator who handles authorizations, characterizations, version checks, etc.
